Installing Flash Licenses

After a flash license is purchased, they are immediately available to download from our servers. Please follow the steps below to install flash license to the USB dongle.

1. Open EcuTek Application Downloader. Click *Download Now*.

EcuTek Application Downloader - Version 1.0.0.14404				
\mathbf{Y}	This tool will download the latest version of EcuTek ProECU. Ensure that you have full internet access before proceeding. Ensure that all existing EcuTek software is closed before proceeding. Once ProECU is downloaded, it will install and run.

Warning X You still have 8 ECU programming licenses left. If the license file you are applying is for flash licenses, this should not be applied until you have no licenses left. If you do apply a license file now, you will lose the licenses that you currently have left. Apply the update and potentially lose what you have left ?							
Yes No							

6. Flash license is now installed on to your USB dongle.
